

DETROIT METROPOLITAN WAYNE COUNTY AIRPORT CONTRACTOR INFORMATION SHEET

To maintain an accurate record of projects that contractors are performing at the Airport, contractors requesting Airport ID Badges must complete this form along with the Delegation of Authority form prior to the badge processing. If additional projects are added, the general contractor and sub-contractors are responsible for updating their information prior to gaining access and requesting additional badges. Additional forms may be required if your company is currently working on more than three projects.
